ITEMS PICKED UP AROUND THE CLUB

Well, here we are again having survived the Christmas season and rarin' to go for the next session. Of course this second spasm will be all over before you read this.

Our Uncle arrived from the frozen north and a jolly re-union was had. He has now returned to his former haunts and other things.

We accompanied our hockey team to Brant the other night, and after a hectic night (on the ice we mean) the boys could not break the tie. This will do Brant a lot of good and Vulcan no harm, and the league will be more interesting.

Would just like to mention that Barons has dropped out of the race and Carmangay will take over their schedule.

We have just been thinking (quite a task for us) what the word "bonspiel" could mean, and have arrived at the conclusion that "bon" means "good," and "spiel" means "talk." Well, what have you?

Wife: "A poor woman came today to ask for old clothes." Husband: "What did you give her?" Wife: "That old suit you had for ten years and the dress I bought last month."

Doc. (to Patient): "And what do you usually drink?" Patient: "Oh I ain't particular—whatever you are taking yourself, Doc."

The boarders complained that the landlady tried to get too much mileage out of the Roller Towel. Oh yes. The popular song of today "The Prisoner's Song," sung by the "jolly cobbler."

There was a young man of Verona Who smoked a nicker "Corona," Till he turned very green And behaved—well I mean, Like the whale that had dined upon Jonah.

And with these few remarks we will sign off for 1929.

Wishing you all a Happy New Year and all kinds of luck in 1930.

LEGION AGAIN SCORES

The dance in the Memorial Hall on Tuesday, December 24, sponsored by the Vulcan branch of the Canadian Legion, was another example of the high class entertainment put on by this organization. There was a good crowd in attendance, and all had a most enjoyable time.

LOCAL ITEMS

Born at Mrs. E. Speer's private hospital on Wednesday, January 1st to Mr. and Mrs. D. R. Speer, of Vulcan, a son.

Miss Mable Hanson of Okotoks spent last week in Vulcan with Mrs. C. Wallace.

Mr. J. D. Cameron left last week for Lacrosse, Washington, where she will remain with her sister, Mrs. B. A. Le Faine for a few months. Mr. Cameron found it necessary to make this trip on account of poor health.

Many friends will be glad to learn that Mrs. Howson, who has averted a threatened attack of pneumonia in the Vulcan Municipal Hospital, is feeling fine and expects to go home shortly.

LOCAL ITEMS

Arrangements are being made for a dance on February 14 under the auspices of the local Rehekah Lodge. Mr. and Mrs. Don Devereaux spent Christmas holidays in Calgary with Mrs. Devereaux's brother.

Mrs. W. Ottewill of Macleod was in Vulcan with her son, Mr. C. Ottewill, for Christmas.

The Dramatic Society commenced, this week, rehearsing a new play entitled "The arrival of Kitty." It has not yet been decided when the play will be shown.

LOCAL HOCKEY TEAM DRAWS WITH BRANT

Despite the warm wind from the south-west and the soft ice the locals journeyed to Brant on Thursday. The score at the end of the three periods was five all and after a strenuous ten minute overtime failed to alter the situation. The bad lights and soft ice made the going very strenuous.

From start to finish both teams played the puck consistently. Amongst the locals Brown and Marshall shone in effective work with Ferguson and Markman and Kaiser on defence. Kaiser the right defence man brought the crowd to their feet with a solo rush when he took a long shot at the goalie from the corner and catching his rebound, tallied unassisted.

After about 12 minutes play, Vulcan was rewarded by Brown opening the score of the evening. Brant broke fast and with Art Tigner playing nice hockey, soon tied up the score. Marshall next put one through on an assist from Ferguson only to have McKay come back with another making the score at the end of the first, two all.

The play broke fast in the second period and both goalies were tested frequently, but the sharpshooters of both ranks were somewhat erratic. After several minutes of play the Kaiser brothers each scored a goal, only to be tied again by the Brant boys and with one from Brown the second period ended with a 5-3 score.

The third period started with the play pretty much on centre ice and both sides checking consistently until towards the minute of the period when Thomas shoved one past the Vulcan goalie again ending the period in a tie.

In spite of the best efforts of both teams it remained unchanged at the end of a furious ten minutes. Neither team could get in close and while Melvin and O'Connell were stopping a lot, no shots were really dangerous. The lineups were as follows: Brant—O'Connell, goal; Thomas brothers defence; Art Tigner, Spider Thomas and McKay, forwards; Thomas and McKay, subs.

Vulcan—Melvin goal; Kaiser, Monkman, defense; Marshall, Brown, and Ferguson forwards; Seaman, Kaiser and McDonald subs.

YOUTHFUL ENTERPRISE

The Advocate has recently learned of the existence of a local club which is unknown to the average citizen of Vulcan.

In the rear of the Carson block there was a vacant shack, and by the enterprise of six or seven local boys, this has been converted into comfortable quarters for "The Vulcan Boys' Club." Here the members meet and enjoy social intercourse, and recreation, on various occasions.

A special occasion was Monday, December 23, when the members enjoyed a delicious supper, consisting of turkey and the necessary trimmings, which was for the most part prepared by the members themselves.

This club, and the spirit which prompted its formation, are to be commended, and The Advocate wishes to extend the best of good wishes.

CHURCH OF CHRIST NOTES

Communion at 10:30. Every member, every Lord's Day at the Lord's table.

Morning message: "A New Year's resolution from the word of God." Bible school starts off with an additional class, a wonderful topic for the day, "Childhood of Jesus." The winners for the New Testament will be made known.

Christian endeavor at 7:15 for the young people, by the young people. At 8 o'clock a song service that everybody can take a part in, followed by the evening service, subject: "Christ and the Gospel in the Psalms" Do not miss this.

Mr. and Mrs. E. Yardley of Calgary spent last week with Mr. and Mrs. Ralph Pritchard. Mrs. Yardley spent a few days with her parents in Champion.

The Vulcan ladies' curlers will hold a ladies' bonspiel following the Foothills association bonspiel. They plan to start the ladies' bonspiel on Thursday Jan. 9, if the other one is finished that early. The attendance and competition of lady curlers from all the world is solicited.

NEW FIRE ENGINE HERE

In connection with the recently announced scheme of fire protection for Vulcan, the new Bickle combined pumper and hose truck, with a capacity of 250 imperial gallons per minute, has now arrived, and the city fathers are being congratulated on its acquisition.

LOCAL ITEMS

On a cold morning—prove REGAL GASOLINE. Advt

Now is the time to renew your subscription to the Advocate. Are your dues for 1930 paid up?

The annual congregational meeting of St. Aldhelm's church will be held after evensong on Sunday, January 12.

K. R. McLean, of McLean & Anderson, Sight Specialists, 224 8th Avenue West, Calgary, visits the King's Drug Store Saturday, January 4th. Make appointments at Drug Store.

Mr. and Mrs. Peter McIntyre, Reid Hill, had their son and daughter Ross and Beta, at home from school at Calgary for the Christmas holidays.

Mr. W. P. Clumhill, Inspector, Department of Colonization and Development, C.P.R., with headquarters at Calgary, was a visitor in town on Friday.

Mr. and Mrs. W. F. Jeonjohn had the pleasure of entertaining their daughter, Eleanor and son, Norman, during the Christmas holidays. The visitors will leave early in the new year to resume their studies.

In our issue of December 19 we printed a list of officers for Maple Leaf Girls' Club. Our correspondent advises us that the president is Sophie Flueck and the vice president Ruth Wylie; we much regret the error.

Mr. and Mrs. E. Greenly from Montana, were Vulcan visitors last week at the home of Mr. and Mrs. A. Vaughn.

A.F. & A.M. INSTALLATION

Vulcan Lodge, No. 74, A.F. & A.M. held the annual installation ceremony on St. John's night, Friday, December 27, when the officers for the coming year were installed as follows:

G. C. Collier, I.P.M.; G. McQueen, W.M.; O. A. Craig, S.W.; Guy Denbigh, J.W.; F. M. Anderson, Sec.; F. L. Symington, Treas.; W. D. Allan, Chaplain; R. Shingleton, S.D.; F. M. Scobbie, J.D.; B. L. Green, S.S.; F. W. Griffin, J.S.; S. Washburn, Tyler.

After the ceremony a social evening was enjoyed by members, visitors and ladies; the entertainment consisted of a banquet at which the usual toasts were honored, music and dancing. Brethren from other lodges were welcomed by the local masons, and all agreed that the evening was a decided success.

LOMOND MASONS INSTALL

Officers and brethren of Pyramid Lodge, No. 108, A.F. & A.M. Lomond, held the annual installation on Friday last with W. Bro. Manning as installing officer.

The following is a list of the newly installed officers: I.P.M., W. Bro. W. E. Howell; W.M., W. Bro. A. R. Hanna; S.W., Bro. Frank Nichol; J. W., Bro. Irvine Kunkel; Sec., R. W. Bro. W. J. Clements; Treas., Bro. F. McIntyre; Chaplain, Bro. C. R. Westgate; S.D., Bro. Frank Cregan; J. D., Bro. P. M. Frost; S.S., Bro. Olaf Moen; J.S., Bro. W. Frost; Tyler, W. Bro. W. E. Howell.

After the business session, an adjournment was made for refreshments, and a social time enjoyed.

Mr. and Mrs. E. Greenly from Montana, were Vulcan visitors last week at the home of Mr. and Mrs. A. Vaughn.

Canadian Legion, B. E. S. L. (Vulcan Branch)

Bondholders are requested to present their interest coupons for payment of interest due December 31st, 1929.

G. D. MUNRO,
Secretary.

LOCAL ITEMS

Miss C. Cairns of the Bank of Montreal staff, was at the home of her sister last week in Rosebud.

Mr. John Jacobson of Calgary was a visitor Christmas week at the home of Mr. D. O. Jantzie.

Mrs. Len Davis who is in the Vulcan Hospital, is making satisfactory progress.

Mr. and Mrs. J. Eamor had as their guests for New Year, Mr. and Mrs. J. D. Eamor and baby Glen from Innisfail.

LITTLE BOW CLUB ENJOYS BRIDGE GAME

A bridge party was held at the home of Mr. George Galbraith in honor of Dr. Charles Galbraith who has just returned from London after a few months of holidaying and business. First prize went to Mrs. A. J. Kennedy and Mr. John Jensen; consolation prizes went to Mrs. Forrester and Dr. Galbraith. In talking with the Doctor we learned that they had a bad storm in the Old Country and, coming over, they had a taste of the second storm that visited England. And he says a taste was plenty. After a brief stay with D. H. Galbraith he will proceed to his home in Vancouver.

Mr. Bernard Pratt has returned from St. Paul de Metis to his home in Vulcan where he will remain for a few weeks.

OPEN OIL OFFICE

Solloway, Mills and Company is opening a new office about the end of January in Black Diamond, adjoining Turner Valley immediately to the east, it was announced Saturday morning. The cellar has been dug and a building 30 feet by 70 feet will be erected. A board will be in operation and other facilities for the complete trading of clients will be installed. It is stated by company officials that a third office to be located in the southern end of the field is under consideration.

MONOXIDE POISON

Daily the newspapers record deaths from monoxide poisoning. People do not seem to realize the danger of this carbon monoxide.

Here is a warning issued years ago: "Carbon monoxide is doubly dangerous because it is imperceptible. It kills almost instantaneously. Well mixed with fresh air, it is relatively harmless, but at a certain point of saturation the air which contains it becomes a deadly vapor. To run an automobile engine in a tightly closed garage may turn a workshop into a lethal chamber where lurks an enemy which kills swiftly and silently and without warning." It was to the effect that a wife heard the automobile engine running in the garage just back of the house. She looked out at once alarmed, for she had noticed that the door was closed. She dashed to the garage and threw open the doors. Her husband staggered through and sank down in the driveway.

A minute longer, perhaps half a minute or a few seconds and he would have had no chance. As it happened he felt suddenly numb and had presence of mind to rush for the door; which opened as he was yet three or four steps from the opening. He was affected by the gas for several days and must use care for weeks. When he could first speak he said: "I didn't smell any odor of gas." Of course not. It is an odorless gas and that is why it is so dangerous.

The gross 1928-29 turnover of the Canadian Wheat Pool was \$288,097,071.09. A very large business made possible by co-operative effort on the part of 140,000 members.

The annual statement of the Royal Bank of Canada shows that financial institution with total assets in excess of one billion dollars.

UNITED CHURCH NOTES

Large congregations assembled at the United Church on Sunday to bid farewell to the old year 1929. Special music was rendered by the choir at both services.

Rev. Mr. Branton at the morning service, in speaking of "Our Report of the Journey," based his remarks on the conflicting report of the twelve spies sent to spy out the land before Israel entered Canaan. He stated that we know nothing about those ten spies, but if we did, we should find that the secret of their evil report was due to the fact that God was not in their hearts. On the other hand, the testimony of Caleb and Joshua who gave us such a good report of the land is quite clear.

It is said of Caleb that he wholly followed the Lord. That wholly followed does not seem to do justice to the man. It's a word used of a ship.

WHY I SHOULD BUY AT HOME

Because my interests are here.
Because the community that is
good enough for me to live in is good
enough for me to buy in.
Because I believe in transacting
business with my friends.
Because I want to see the goods I
am buying.
Because I want to get what I buy
when I pay for it.
Because my home merchant will
take care of me when I run short of
cash.
Because some part of every dollar
I spend stays at home and helps
work for the welfare of the town and
country.
Because the merchant I buy from
pays share of the town taxes.
Because the home merchant I buy
from stands back of his goods, thus
always giving value.
Because the merchant I buy from
helps support our poor and needy,
our schools, our churches, our lodges
and our homes.
Because if ill luck, misfortune, or
bereavement comes, the merchant I
buy from is here with his kindly ex-
pressions of sympathy, his words of
cheer, and, if needed, his pocketbook.
Let us make this town and district
a fit place in which to work and live.
It is easy, if everyone will do his
share. The dollar sent away seldom
returns; while the money spent at
home is apt to leave a scraping at
your door.

SLEEP, SWEET SLEEP

A few years ago scientists pro-
duced evidence to show that the brain
which has been denied sleep for long
periods loses from its cells a sub-
stance necessary to vital activity.
Sleep alone, they claimed, was cap-
able of restoring that substance.
Which suggests that the most active
brains require more sleep than nor-
mal ones, a theory to which most
sleepy-heads will readily subscribe.
But along come other scientists who
claim that the more one uses one's
brains, the more willing they are to
be used. They cite the Emperor Na-
poleon as a man who could do with-
out sleep for nights in succession and
whose brain was none the worse for
it.

GAS RIGHTS FOR SASK.

The statement is published that a
Montana company has acquired fran-
chises to supply natural gas to Re-
gina and Saskatoon. In view of the
fact that more than 200,000,000 cubic
feet of natural gas is daily going to
waste in Turner Valley, some wonder
is felt that franchises have actually
been granted the American concern.

The American company will com-
mence drilling operations near Chin-
ook to develop a gas supply and the
work has already been commenced.
Rather strange that an American
company can enter Saskatchewan and
secure a valuable franchise in op-
position to the Canadian Natural Gas
Company and when there is such a
wastage right here in Alberta.

BANKER'S BRIGHT OUTLOOK

Pessimism as to the economic, in-
dustrial and commercial condition of
Canada was given a body blow by
Sir Charles Gordon, president of the
Bank of Montreal at the annual meet-
ing of that financial institution. In
reviewing the commercial situation in
Canada, he said, "it should be kept in
mind that there have been five years
of almost uninterrupted expansion.
In that brief period Canada has ach-
ieved a degree of development quite
unprecedented. Not in one or two
directions, but practically in all, re-
markable material progress has oc-
curred—in agriculture, in many lines
of manufacturing, in mining, fore-
stry, trading, water power production
and building construction.
Further Sir Charles said, "may I
say there never was a time in the his-
tory of Canada when business as a
whole has been at a higher peak than
during the year under review, or
when the developed sources of our
wealth were more wide and varied
than they are today, and never a time
when the earning power of our peo-
ple was sustained in so many chan-
nels of production. We must not al-
low a possible temporary reaction,
the result of a collapse of a purely
speculative orgy in the stock markets
unduly to distort our views. Funda-
mental conditions are sound, and
there is no reason for apprehension
as to the ultimate future of Canada."

AGAIN TITLES

Every few months we democratic
Albertans take pleasure in recalling
the titled people who are or have
been farming in Alberta. The Earl of
Egmont is one of the most recent en-
trants into aristocratic circles. He
was farmer first, then Earl. The
same is true of Lord and Lady Ar-
buthnot, who were out in their
wheat fields laboring with the thresh-
ing when they received word of their
new title. Lord Arbuthnot is now
Lord Lieutenant of Kincardineshire.
Lord Aberdeen and the Duke of
Sutherland were in old days associ-
ated with Alberta land owners. Lord
Boyle, later the Earl of Shannon is
another.

One of the most interesting cases
of titled foreigners at present in the
country is that of Barons Joseph and
Andre Casovossy, Hungarian nobles-
men, who came here to settle in
1925, after search for a home in
many countries. They bought 1600
acres of land and with them came
four families, that had been feudal
tenants of the family in Hungary.
The barons introduced for a time the
old tenantry system, but their retain-
ers, stung with personal ambition to
own their land, flung off the heredi-
tary yoke and are on their own.
The Casovossy ranch however, has
grown and prospered with prime beef
and wheat as the main output. A
Moth plane has been added to farm
equipment, and transports the titled
farmers to and from Calgary at will.

ELECTRIC AGE

From Edison's electric light inven-
tion over fifty years ago, there have
sprung infinite uses of electric lamps.
In the average home the light used
every night is equal to 184 candles,
requiring about ten minutes a day of
labor to pay for. Amongst the ex-
tremely delicate pieces of electric
mechanism are lamps so small that
they can be swallowed or stuck into
the nostrils. The dentist has a glass
rod with a lamp the size of a rain-
drop, by which he can explore the
teeth. While the nineteenth century
was the age of steam, the twentieth
is the age of electric motor. And for
this, Edison laid the foundation.

ALL JOIN IN

The outstanding characteristic of
Canada's outdoor winter pastimes is
that they tend to invite everyone to
participate rather than look on. The
majority of these recreations require
no special conditions and no ruinous-
ly expensive equipment. The blood-
stirring atmosphere calls for individ-
ual action, and hence the general
popularity of skating, curling, tobog-
ganning, ski-ing, etc.

ADVICE TO PENSION BOARD

Senator John Lewis proffers some
badly needed advice to the pensions
board in regard to soldiers suffering
disability and who have, not been
getting their dues due to a false no-
tion on the part of those composing
the board that it is their duty to pro-
tect the taxpayer by keeping down
federal expenditures. No such duty
is or ought to be cast upon them. It
is their duty simply to say what is
justly due to the soldier. It is for
parliament to find the money and this
in my opinion, will be a very easy
task. It is not for the pensions board
to consider how much the country can
afford, any more than it is the duty
of a jury in a civil action to consider
how much the defendant can afford
to pay. The jury simply decides how
much the plaintiff is entitled to. The
pensions board should act upon the
same principle. They should be given
to understand plainly that we do
not want them to save our money,
ad they will get no credit for doing
so. If the law is not plain enough,
make it plain that pensions will be
awarded for disability whether caused
wholly by war service or existing
at the time of enlistment. Then the
pension board should be instructed to
loosen up.

SUNSPOTS HOVER

Scientists believe that sunspots
have "connection with weather ex-
tremes. Every eleven years sunspots
recur and the past has shown that at
these times there is extremity of
weather. The last sunspot period
was in 1918 when one of the worst
droughts of our history was experi-
enced. Somewhat similar conditions
prevailed for two or three years.
A year ago, scientists were warn-
ing us that 1929 would usher in a
drought period of two or three years.
Taking it over the continent, last sum-
mer was very dry. It was the same
in British Isles. With the sunspot
period upon us, it is possible that we
are confronting a year or two of ex-
tremes and of drought the weather-
tremes and of drought. The weather-

AREAS RESERVED FOR BIRDS

Forty-three bird sanctuaries have
been reserved in Canada by the De-
partment of the Interior under the
Migratory Birds Convention Act,
which is the Federal law for the pro-
tection of migratory birds. These
are also fifty-one public shooting
grounds reserved by the Dominion
Government in Western Canada.
Shooting is allowed on these latter
areas in the open season.

Twelve motor snow ploughs have
been purchased by the government
for use on provincial highways. They
operate with success, it is claimed.
In California, there is a flourishing
angleworm ranch which supplies the
fishing bait market with nice worms
in tin cans all ready for the hook.

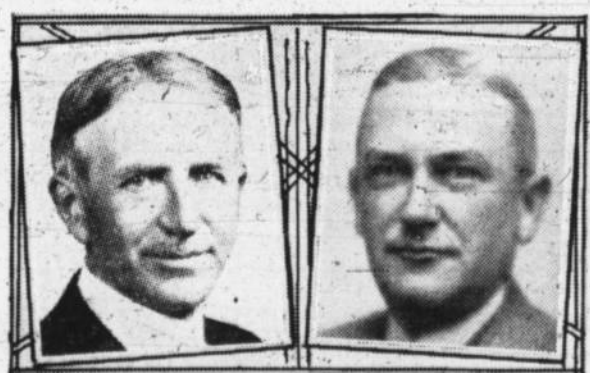

EMPLOYMENT PROMISED

Practically continuous employment
for the 643 men who have been work-
ing on the Calgary Power Company's
dam at the junction of the Bow and
Ghost rivers, is promised for the win-
ter months by R. B. Baxter, manag-
ing director of the company, who
gave this assurance to civic officials
at Calgary on Tuesday of last week.
Mr. Baxter said that 343 employees
were now engaged in building trans-
mission lines and installing trans-
mission systems throughout the
province. While some of the 300 men
still working at the Ghost dam might
be dropped from the roll during the
next few weeks, there would be fur-
ther work available in January.

NATURAL RESULT

That he lost his head through hav-
ing been married the previous day,
was the plea of J. Woods, of Cal-
gary, on being charged with turning
his car between the intersections on
Fifth Street. As such an event as a
wedding would not probably occur
again to affect him, Magistrate Ham-
ilton discharged the defendant, tak-
ing his excuse.

How comforting to reflect that the
ordinary car you have is the wonder-
ful one the ad. describes.

BECOMES PRESIDENT OF FIRESTONE COMPANY

Announcement has recently been made that E. W. BeSaw
(at right) formerly Vice-President and General Manager of the
Firestone Tire & Rubber Co. of Canada, Limited has been
promoted to President. Mr. BeSaw started with the company in
1909 as a salesman and has had a most brilliant career. Harvey
S. Firestone (at left) rubber pioneer and one of the world's
outstanding figures in commerce and industry has been made
Chairman of the Board.

K. R. McLEAN, Registered Optomet-
rist and Eyesight Specialist, makes
visits to this store every second Satur-
day. Next visit, January 4th.

DATED at Calgary this 30th day
of November, 1929.

Approved,
"L. F. Clarry" "C. H. Smith"
M.C. Clerk in Chambers
Dec. 19-30

LAND CLEARING

Edmonton district is reaching a so-
lution of unemployment, by institut-
ing a land clearing problem. The
work is being done under the Provin-
cial Gov't and camps will be estab-
lished in the brush land at no great
distance from the city. Farmers who
wish to have their land cleared, can
arrange their payments with the
government over a term.

While this in a measure, relief
work, it will make the land much
more valuable, and it is expected
that the work will require a large
number of the unemployed for a
great part of the winter. The scheme
will be operated early in January.

NATURAL RESOURCE

Although the actual transfer of re-
sources may not take place till next
summer, already the far-reaching in-
fluences are being anticipated. Hun-
dreds of government employees will
be affected. Edmonton will be of in-
finitely greater importance, as much
business which formerly was trans-
acted at Ottawa will be done at the
Provincial Capital.

A heavy responsibility is placed
upon the shoulders of the present
provincial administration, in develop-
ing and safeguarding resources.

It is believed by many that Alberta
is the wealthiest province of the Do-
minion. But this wealth is, to a
great extent latent. Minerals, coal,
gas, oil, tar sands, timber, waterpower
and even vast agricultural lands,
have as yet been scarcely touched.
All are waiting wise development.

And it will require most careful ad-
ministration at the outset, in order
that the people as a whole may bene-
fit. It will not be the work of a day.
We will be scarcely able to note re-
sult for a few years. It will be de-
cades possibly before the complete
reward of the foundation program is
reaped.

The heads of government will need
all their wisdom in the coming years.
The Natural Resources question in
so far as it affects Alberta is settled.
On December 14, representatives of
Federal and Provincial governments
signed the agreement restoring to the
province complete control of its Natural
Resources.

In lieu of those resources which
have been alienated by grant and per-
mit since the Province was establish-
ed, the Federal government will con-
tinue in perpetuity, the subsidy to be
on a sliding scale from the present
one of \$560,000 annually to rise to
the maximum of \$1,125,000 as popu-
lation increases; and having reached
that maximum to remain there.

All natural resources, lands, min-
erals, mines, fisheries, forests and
waterpower are now under the admin-
istration of the Province.

The transfer of school lands and
school funds to the Province gives
the trusteeship for the funds into the
hands of the Province.

Any cash payment to which the
Province may be entitled, in the mat-
ter of resources alienated or of parks
reservation shall be determined by an
investigating commission of Justice
Turgeon, Saskatchewan, C. Bowman,
Ontario and Mayor Osborne, Calgary.

National parks in the province re-
main under the jurisdiction of the
Dominion. These are Buffalo Park,
Elk Island Park, Jasper, Nemiskam-
an, Rocky Mountain, Wawakees
and Wood Buffalo reserve. The na-
tional resources within these parks
will be the property of the Dominion,
but the boundaries of some are to be
altered, so that present mineral and
power developments, including Spray
Lakes, will be outside the Parks and
within the jurisdiction of the Prov-
ince.

Legislation is likely to be intro-
duced in Parliament, in regard to Park
boundaries, that land on the bound-
aries having notable commercial or min-
eral value may be excluded from re-
servations. The understanding is how-
ever that no works outside the bound-
aries of the parks must be permit-
ted to reduce the flow of water in
park streams to any harmful extent,
or in such a way as to reduce scenic
beauty.

Indian Hunting Right
In order to secure to the Indians of
the province the continuance of fish
and game supply, Canada agrees that
the laws respecting game, in force in
the province, shall apply to the In-
dians within the boundaries, provid-
ing the Indians shall have the right of
hunting, trapping and fishing (for
food) at all seasons of year on all
unoccupied Crown lands and on any
other lands to which the Indians
have right of access.

Soldier Settlement
All interest in Crown lands in the
province on the security of which any
advance has been made, under the
Soldier Settlement Act, of 1927 sta-
tutes of Canada and amending Acts,
shall continue to be vested in and
administered by the government of
Canada for the purposes of Canada.

BIGGEST INCOME TAX

Arthur W. Cullen, native of
Guelph, famous trader of the grain
pit, says the stock market is a fair
institution for investors who use dis-
cretion in making purchases. Cullen
pays the highest income tax in the
Chicago area and is credited with
having taken \$1,000,000 out of the
market in a single maneuver. He
says:

"Two things are needed to succeed
in the stock market—nerve and vision.
The stock market today is a fair
institution. Everybody has a chance
except those who do not use their
heads. A man can't expect to make
money on a stock if he buys without
the faintest knowledge of the stock."

A shake-up in the Alberta Cabinet,
with the addition of at least three
new portfolios, those of labor, immi-
gration, and lands, is expected to re-
sult following the signing of the
agreement between the Federal Gov-
ernment providing for the return of
the natural resources of the province,
according to a rumor published in the
Calgary Herald.

UNITED CHURCH NOTES

(Continued from Front Page)

going out at full sail. Caleb set his
sails full and free to the winds of
God's power. As a vessel unfolds ev-
ery inch of canvas to catch every
ounce of wind, so Caleb flung every
faculty of body and soul open to the
winds of God's eternal grace. And if
we want to get the best out of life
and give a good report to those who
come after us we must do the same.
So here we are standing on the
threshold of another year, we who
have been up in the land, and the
boys and girls who are coming after
us. To them it is a land of dreams,
to us a land of realities. What sort
of a report have we got to give
them? Have we only a story of shat-
tered hopes of disappointments and
defects and sad and bitter memories.

Or have we a story to tell them of
the wonderful keeping power of God,
and his mercy and grace which is all
sufficient.

We cannot prevent our boys and
girls from going up but on us de-
pends the spirit in which they go up.

May we have the courage to say
with Caleb "Let us go up and possess
the land for we are well able to over-
come."

At the evening service Mr. Brun-
ton spoke from Exodus 15:15: "Speak
unto the Children of Israel that they
go forward." And said that from
that day in the history of Israel
down to the present time, that battle
cry has been the word of God to his
people in times of dispondency and
gloom "Speak unto the children of
Israel that they go forward." It's
God's word to us today as we stand
on the threshold of another year.

There is always the grouser with
us who say that Christ's day is past
and the church is being left behind;
and although time has refuted these
prophecies again and again, yet in
hours of dispondency we are apt to
give them a ready ear.

He quoted a reprint of an article
which appeared over a hundred years
ago prophesying the ruin and down-
fall of the British Empire, and point-
ed out that while the author of the
article in question had passed away
and the printing press had passed out
of existence, the British Empire
is growing yet. It was McAuley who
said "All my life long I have seen
nothing but progress and heard nothing
but decay and death."

Forward is the watchword of the
individual, the church and the nation.
It's a moral certainty that nothing
can ever happen so long as we sit
still and mope. But to go bravely for-
ward is to have the key to success
and victory.

A special feature of the evening
service, was a beautiful rendering of
the "Ninety and Nine" by Mrs. A. E.
White and "Sing the Resurrection
Song," by six male voices which
were much enjoyed by the large con-
gregation present.

The regular services will be held
as usual both morning and evening at
11 a.m. and 7:30 p.m. and at Red
Cross at 3:30 p.m.

Bible class conducted by J. H. Wy-
cherly, meets at 2:30 p.m. in the Sun-
day school room. A hearty invitation
is extended to men and women and
young people to attend.

FUR EXPORTS

From July 1, 1928, until June 30,
1929, Alberta fur production totalled
1,669,663 pelts, valued at \$2,473,191-
10, according to figures compiled on
Thursday by Commissioner Benjamin
Lawton, of the game branch of the
provincial government. This is a con-
siderable increase over the figures for
the previous year, when the total
number of pelts was 933,150, valued
at \$1,661,691.50.

Muskat proved the most profitable
item in value received there being a
total of 537,556 pelts, valued at \$648-
067.20. Only squirrel exceeded musk-
rat in number of pelts. This species
of animal yielded 606,095 pelts, val-
ued at \$121,201.

The average value of a muskrat
pelt was \$1.20 while squirrel aver-
aged 20 cents.

A total of 1,622,693 pelts were ex-
ported during the period under re-
view, for a total value of \$3,871,797-
80. The reason for the higher re-
turn from exports than for total pro-
duction for the year being that some
furs of the previous year's catch were
exported in the period under review.

KIRKCALDY NEWS ITEMS

Mr. Doyle Dunbar who has been
visiting with his sister, Mrs. Jene
Kukendall at Grand Prairie, returned
home on Sunday night, reporting
that Peace River is a great place.

Mr. A. J. Maisey was a visitor in
Calgary on Tuesday.

Mr. Morris Scott is visiting with
his parents in Red Deer the past
week.

A very enjoyable afternoon was
spent on Wednesday, December 25,
when Mrs. Herman Dunbar entertain-
ed Mr. and Mrs. Mervin Kerr and
daughter, Mr. and Mrs. Zed Deal and
family.

Mr. Frank Hobbs of Calgary was a
visitor the past week at the home
of Mr. and Mrs. H. F. Boose.

Mr. and Mrs. Grant Mallory and
family have been visiting in Leth-
bridge with her sister-in-law, Mrs.
David Patterson.

Miss Irene Snyder left on Sunday
to visit with friends in Nanton.

Miss Gertrude Roebuck left on
Monday for Calgary where she will
visit with friends for a few days.

Mr. Robert Robbie and son Glen of
Edmonton were visitors in the Kirk-
caldy district on Saturday.

Mr. and Mrs. Chapman and Alice
Klebe were visitors on Wednesday at
the home of Mr. and Mrs. Leslie Mid-
dleton.

Mr. and Mrs. H. F. Boose and Miss
Rhinehart were visitors at the home
of Mrs. W. G. Anderson of Champion
on Thursday.

The Kirkcaldy Women's Institute
will meet on January 9th at the home
of Mrs. A. Roebuck.

The Peppy Pals Girls' Club will
meet in the hall on January 11th.

This year just passed has been a
good one for this part of the prov-
ince and for this we should all be
truly thankful.

WASTE PROFITS

Many Waste Products on Farm, Are
Turned into Valuable Articles

Billard balls from milk, lumber
from straw, linoleum from cornstalks
food from sawdust, dyes from mus-
kies—these are but a few of the mag-
ic discoveries that chemistry has per-
fected.

This opens up new avenues of use
for farm products which have hith-
erto been a dead loss to the farmer. It
gives value to material in which there
has been no value.

And as research extends, factories
will develop in agricultural districts,
that will mean employment and ex-
tended industrial life.

Straw stalks alone are of great po-
tential value. The chemicals in a
ton of straw are valued at \$250.

Straw contains cellulose which in
turn is used in films, explosives and
lacquer. Radio dials are of cellulose,
so are brushes and artificial leather
goods.

In U. S. factories are working busi-
ly, using wheat straw in the making
of disinfectants, roofing, paints and
lumber.

Shortly similar factories will doubt
less be established in Canada.
Oat hulls produce furfural, a valu-
able and high priced product similar
to formaldehyde.

In the matter of milk, it is known
that for every pound of butter there
are two pounds of other solids in the
milk, now wasted. Casein is one,
which makes fine imitation ivory or
is used to produce the sheen on paper.
Ten years ago, all this casein was
thrown away. Last year 100,000,000
pounds of milk solids were recovered
by Canadian dairies. These furnish
lime and phosphates, and a factory
for this is being built in Saskatoon.

Again from milk, may be salvaged
calcium (for concrete and limestone)
magnesium and potassium.

Milk is a chemical factory and min-
eral mine in one, with its powers only
touched upon.

A new and bright vista is opened
for the farmers, and it will not be
many years, with present industrial
development, until farm waste will be
greatly eliminated and unexpected
sources of revenue developed.—Country
Guide.

Between \$40,000,000 and \$50,000-
000 has been withdrawn from savings
accounts in Canadian Banks, trust
companies and government depart-
ments since November 1, the month
of the big stock market crash, accord-
ing to figures being compiled.

office and paying for this adver-
tisement.

CADET TRAINING

The improvement in numbers and
efficiency shown by the cadets of the
province, is something which many
people view with satisfaction as a
factor in maintaining many discipline
amongst the boys. The improvement
is due in no small degree to increased
After a war, it is difficult for cadet
interest displayed by school teachers,
organizations. Those who see in ev-
ery military organization possibility
of future war, are blinded to the
manifest advantages of military
training, and find it hard to believe
that in cadet training, only the ad-
vantages of military training are in-
cluded.

There is much in cadet training
which teaches team work, unselfish-
ness, devotion to duty; submission to
discipline, leadership and many other
civic virtues.—Morning Albertan.

Modern granddaughter—"But
Grandmother, in your days the girls
used to set their caps for men!"
Grandmother—"Well, dearie, maybe
so, but certainly not their knee-caps."

STOCK TAKING - SPECIALS -
